ASSIGNMENTS, EVALUATION PROCEDURES, AND GRADING

Assignments

Project 1: Shared Block 2 Assignment (100 pts)

Block 2 students are required to teach one lesson plan for each of the 4 content areas of reading, math, social
studies and science. You will choose one of these lessons to videotape and complete the commentary for Task 1
and 2 of edTPA practice. The lesson needs to support all learners to include but are not limited to students with
IEP’s, English Language Learners, struggling readers, underperforming students or those with gaps in academic
knowledge, and or gifted students. Each student will write a learning segment of 3 lessons for one of the content
courses. You will sign up for one of these areas. Even though your Lesson Segment is written for one content
area, you will receive credit in all four methods courses. This Learning Segment will count for 10% of your
grade in each course.

Project 2: Discussion Board Postings (200 pts)

On discussion board you will respond to question(s) for the week by the assigned date (see outline below). Your
initial (generally lengthier) response to this question is your main post. You will then shortly after
respond to at least three classmate main postings (generally shorter) for your peer responses. The 10 main
postings are worth a total of 120 pts and the 30 peer responses are worth a total of 80 pts. (Course Objectives 1-9)

Project 3-6: Course Assignments (260 pts)

3) Artifact Bag – 10 pts – See Course Wiki/E-mail
4) History Through a Child’s Eye – 120 pts – See Course Wiki
5) Biography Glog – 50 pts (create using edu.glogster.com) – See Course Wiki
6) Multicultural Day – In class activity – 30 pts – See Course Wiki

Assignment information can be found on the course wiki:
http://eced4261-fall2014.wiki.westga.edu/ (Course Objectives 2-9)

Project 7: Content Area / Lesson Presentation (150 points)
In small groups, you will present a differentiated SS lesson and supporting activities to the entire class (See sign-up sheet for subjects and dates.). Differentiation should be approached as high/med/low not learning styles alone. Your presentation will last a minimum 45 minutes and a maximum of 1 hour. You must present the lesson as you would if you were teaching it to a group of elementary students. You must have all necessary materials for the class to be actively involved in the concept being taught. I have a bag with a limited supply of crayons, scissors, etc. It is your responsibility to come to my office to retrieve the bag prior to the lesson being taught if you would like to use these materials.

A. You must send an electronic copy of your lesson and all supporting materials to me via Course Den e-mail for grading at least 24 hours prior to teaching your lesson. This can be done by a single group member, but must include all member names on materials. Failure to turn the lesson in ahead of time will result in an immediate reduction for the group if received the day of.
B. Professional dress is required for your presentation. Failure to do so will result in an immediate 10 point reduction for the individual.
C. All materials/components must be complete and present for your lesson. This includes (but not limited to) your differentiated rubrics or checklists, assessments, examples, craft materials etc. (Course Objectives 1-9)

Project 8: Center Activity (80 points) – See Course Den

You will create a differentiated center. Differentiation should be approached as high/med/low not learning styles alone. The center activity will focus on GPS Social Studies standard and can be if you choose, integrated with another GPS (on the same grade level). The completed center must be functional without the use of computers or Internet. You will be responsible for providing clear directions and all related materials necessary for the use of the center. As the center will also be differentiated, depending on construction this may result in three different centers/instructions or simply varied task expectations.

All centers will be displayed in the classroom. Each class member will provide a brief description and/or demonstration of their center. We will then be able to rotate around the room completing the centers at each station (table). You must have enough materials for all members of the class. I recommend using a plastic sleeve for your instruction sheet. You will submit as much of your center as is reasonable to the discussion board prior to the class meeting. At a minimum you will submit your instruction sheet. (Course Objectives 1 - 9)

Project 9: Resource Wiki (120 points)

Students will complete a wiki with Social Studies related children’s literature, web resources, lessons, activities, etc. We will begin creation the wiki in class, with the following sections:

A. GPS standards
B. Geography
C. History
D. Civics
E. Economics

You will select a single grade level to work with. Each section of the wiki should include a list of appropriate websites, children’s literature related to the topic, lesson plans, activities, games, etc. You may use activities, websites, lessons, etc. that are presented in class.
1. Find at least 4 of the following resources for each section B-E: websites, lesson plans, activities/games, literature (title, author, and image). If done correctly you will have 16 items in Geography, 16 items in History, 16 items in Civics, and 16 items in Economics.

2. Section A: GPS standards serves as an index of only the standards you have selected for sections B-E.

3. General construction should be as follows. You construct the wiki within your own personal space. Each item A-E links to its own individual page within your space. On the course page you add your name/wiki as a link that can simply be clicked to access. Be sure you have set your permissions to allow your peers and I access. No one should be constructing your wiki for you. You can ask your peers for help/questions, you can view others work, but ultimately this is an individual assignment.

4. This is just a beginning to a resource file that I hope you add to in the next three field experiences.

You will submit your wiki link on the course wiki!

(Course Objectives 1-9)

Expectation 10: Professionalism (150 points)

Students are expected to attend ALL classes and are accountable for all materials covered. This portion of your grade regards your participation in class and your professionalism in coming to class on time, participating in activities, and being respectful of others during class. We understand that emergencies and illness occasionally occur. Any arrival after class begins is considered a tardy, arriving later than 20 minutes or leaving class early without permission from the instructor is considered an absence. Four tardies will be calculated the same as an unexcused absence.

You are allowed 1 excused absence only (with proper documentation). Any additional absences will be counted as unexcused. As this is a methodology course five or more total absences will result in a failing grade for the course.

Lesson presentations, center activities, etc. cannot be made up if you are absent. Under exceptional circumstances with proper documentation and sufficient supporting work the highest possible grade that could be achieved for missing one of these would be half of the total assignment points.
