ECONOMICS 2105  
CRN: 10438. Section: 01  
M, W: 9:30am-10:50am. Room: RCOB 1309  
TERM: SPRING 2013  
COURSE TITLE: PRINCIPLES OF MACROECONOMICS

Instructor: Salvador Lopez, Ph.D.  
E-mail: slopez@westga.edu  
Office phone: 678-839-4778. Fax: 678-839-5041. Room: 1317  
Office hours: M, W: 8-9am. T, Th: 8-12pm.

REQUIRED TEXT: ECON 3 for Macroeconomics. Author: William McEachern. You may buy an earlier edition, but make sure that exercises assigned are the same.

PREREQUISITE: A 2.0 minimum GPA

EXPECTED LEARNING OBJECTIVES:  
The overall objective of this course is for you to learn basic economic concepts, specifically macroeconomics, and more about the economic system in which we live. To achieve this end, upon completion, students will:

- Be able to describe basic economic concepts such as scarcity and opportunity costs (LG4, LG7). Chapter reference: 1-2.
- Be able to summarize in writing the key macroeconomic concepts contained in an article from a business periodical such as the Wall Street Journal (LG1, LG4, LG7, LG8). Chapter reference: 5-16, 18.
- Demonstrate a basic knowledge of macroeconomic concepts such as gross domestic product, inflation and unemployment (LG4, LG8). Chapter reference: 5-8.
- Demonstrate a basic knowledge of international economics including concepts such as exchange rates and net exports (LG4, LG5, LG7, LG10). Chapter reference: 18-19.
- Demonstrate a basic knowledge of the banking system, the impact of the Federal Reserve on the economy, and government taxation and spending policy (LG8). Chapter reference: 12-16.
- Be able to analyze the effectiveness of fiscal and monetary policy in combating inflation or unemployment (LG4, LG8, LG11). Chapter reference: 12-16.
- Be able to apply macroeconomic models such as aggregate supply and demand to the analysis of current economic issues (LG4, LG8, LG10, LG11). Chapter reference: 9-11.

Note: A complete list of expected learning goals (LG) for the Economics Department can be found at the department website http://www.westga.edu/econ/index_12904.php

ASSESSMENT: You will be evaluated based on your performance on two regular tests, in-class (clicker) participation, and a final exam.

Tests: During the semester, you will take two tests and a final exam scheduled as shown below. To each test, you must bring a simple calculator (no text capability, no TI-80s)
and a business-school scantron (882-E). YOU CANNOT USE CELL PHONES AS CALCULATORS.

Important note: Most test questions are based on material discussed in class through different methods such as videos, current economic news, and lecture discussions. In other words, to get a good grade, you need to attend classes, pay attention, and take “smart” notes.

Cheating Policy
If a student is found cheating while taking any test, he/she will receive a warning from the instructor. If he/she continues cheating during the same test or another one, he/she will receive a zero on the test and will be dropped from the course. This policy also applies to a student who uses another student’s clicker to submit answers. In such case, both students will receive a warning and a zero on the assignment. Cheating includes, but it is not limited to, seeking or giving information from or to other students, or using prohibited means to obtain information such as written notes or electronic devices with text capability (cell phones, MP3s, PDAs, smartphones, etc.).

Test behavior rules: If you have a question, raise your hand and wait until the instructor approaches you. DO NOT TALK while taking a test and DO NOT make any loud comments about the test neither inside the classroom nor its vicinity.

DO NOT WEAR ANY KIND OF HAT WHILE TAKING A TEST.

Activities, dates, and corresponding weights of final grade:
Clicker Questions: every session, all chapters in the course (10%)
Test 1: Monday, February 4th. All material covered since day one (30%).
Test 2: Monday, March 4th. All material covered since Test 1 (30%).
Final Exam: Wednesday, April 24th, 8am. All material covered since Test 2 (30%).

Make-up Policy: If you have a valid, verifiable, and justifiable excuse (medical excuse, police report, etc.) that contains relevant dates, you can take a make-up test the weekday after your excused dates end. If you anticipate that you will miss a test, please contact your instructor and present or fax your valid excuse as soon as possible. Phone calls or e-mail messages can be used to let the instructor know that you have an unusual situation (sickness, accident), but they ARE NOT valid excuses. If you miss a test and do not have a valid excuse, your grade will be a zero.

In-class (clicker) assignments: During the term, you will be required to participate by responding to clicker questions related to current material. You can consult with other classmates unless it is instructed otherwise. Each answer you respond will receive a value of one point. Each right answer will count for two points. Your clicker grade will be estimated as a proportion of maximum points possible. If you forget to bring the clicker, your grade for the session will be a zero. No exceptions. You are responsible for the proper function of your clicker. You should always carry additional batteries and, if possible, a spare clicker. In case your clicker stops working in the middle of a session, DO NOT INTERRUPT THE CLASS TO REPORT IT. Make sure that you have the
right amount of batteries and that they are placed properly. I will not make an adjustment to your grade, nor will I accept sheets of papers or index cards with answers.

If you use your cell phone in class for any purpose, your clicker grade for that day will be a zero. Cell phones must be turned off (no “silent mode”) before class starts.

Attendance and tardiness: You are responsible for all announcements and material covered in every session. If you do not attend classes, you will receive little consideration in regard to individual instruction, borderline grade decisions, etc. Classes will begin promptly at the scheduled time. As a sign of respect to your instructor and classmates, you are expected to be on time. If tardiness becomes too disruptive, I will post a sign outside the classroom indicating that class has already started and that you should not enter.

Cell Phones and Laptops: Turn cell phones off before class starts and place them inside your bags or purses. If you have a special situation or emergency and need to leave your phone on, please contact me before class starts.
If you want to use a laptop computer to take notes, please let me know in advance. You can be authorized only if it is for such purpose, and you will be required to sit in the first row.

BEHAVIOR: Arriving late, leaving early, leaving and returning to the classroom, talking during lectures, yawning loud, using profane language, and using your cell phone (phone rings, phone calls, text messages) while in class, are some of the most common ways students may interrupt a class, disrespect others and, worst of all, encourage other students to do the same. If you consistently show a disruptive behavior as described above or on the Student Code of Conduct found in the UWG Student Handbook, you will receive a verbal warning. If your behavior continues, I will start a process to drop you from the course.

STUDY GUIDES: I will provide you with a list of relevant topics and questions for each chapter covered. All your test questions will be based on those guides and previous clicker questions. These and any other aid (like Power Point slides) will be available on CourseDen (D2L).

GRADE POSTING:
Grades will be shown on CourseDen (D2L) within 24 hours after every test. If your name does not appear, you need to contact your instructor immediately.

CHAPTER COVERAGE:
1-16, 18-19. Deviations may occur.

VERY IMPORTANT: NO FOOD OR DRINK IN THE CLASSROOM. TURN CELL PHONES OFF.
