Assessment

You will be graded based on your performance on four tests, Aplia assignments, a current economic conditions assignment, and in-class exercises and homework as described below. Extra credit is not an option in this course.

Tests – There will be four tests. The tests will be a combination of multiple choice, true/false questions and short answer problems. The questions will be based on reading assignments, lectures, online material, in-class exercises, homework, and class discussions. Each test is worth 17% of your grade. You are responsible for bringing a No. 2 pencil to each exam.

Examination Schedule:

Exam #1 – September 5
Exam #2 – October 1
Exam #3 – October 31
Exam #4 – December 5

Aplia Assignments – There will be assignments made on Aplia each week. The Aplia week begins on Monday and ends on Sunday. The due date for Aplia assignments for each week is 11:59 pm on the Sunday that ends the week, unless the professor notifies you otherwise. The grades on the Aplia homework will be worth 12% of your final grade. The three lowest assignment grades in Aplia will be dropped when calculating your final Aplia grade. Aplia assignments will not be accepted late – no exceptions! Instructions for how to register for and use Aplia can be found in CourseDen. All students must register for Aplia by August 18.

Current Economic Conditions Assignment: Throughout the semester, students are expected to follow current economic events by watching the news and reading newspaper and internet stories about the U.S. economy. In the second half of the semester, students will complete a two part writing assignment on current economic conditions. For the first part of the assignment, students will be required to watch an online presentation on the current economy and summarize what happened to GDP, employment, unemployment, and inflation during the last recession and since the recession ended. For the second part of the assignment, students will read an article assigned by the professor on the current U.S. economy. Students then will have to write a response to questions relating the article to the presentation and the material covered in class this semester. The video for part one of the assignment will be posted by Thursday, October 3, and part one of the assignment will be due by 11:59pm on Thursday, October 17. The article and questions for part two of the assignment will be posted by Thursday, November 7, and part two of the assignment will be due by 11:59pm on Thursday, November 21. Both parts of the current economic conditions assignment will be submitted as an assignment in CourseDen, and the
