VIII. Methods of Evaluating the Outcomes:

Your overall quiz score is calculated as the sum of your ten highest quiz grades (there are twelve quizzes: the two lowest scores are dropped). The two exams are in-class exams. The Midterm Exam covers material from the beginning of the course until the exam date. The Final Exam is comprehensive covering all material from the beginning until the end of the course.

*Each online quiz may be taken up to four times. The highest score is retained for grading purposes. The quizzes change each time they are opened. Quiz questions are randomly selected from the associated database.

**There are corresponding sample exams in CourseDen for all exams. Sample exams are provided as study aides. Sample exams can help increase your exam score, but cannot lower your scores. If your highest sample exam score is lower than your actual exam score, you keep your actual exam score. If your highest score on the sample exam is greater than your actual exam score, your exam score will be calculated as:
Exam Score = (1/4)(Sample Exam Score) + (3/4)(Actual Exam Score).

Work submitted for credit in other courses will not be accepted for credit in this course. There is no extra credit in this course beyond that explicitly stated in the course syllabus or announced in class by the instructor. I reserve the right to “curve” grades.
