University of West Georgia
MATH 3703: Geometry for P-8 Teachers I
Summer 2020
Course Syllabus

Instructor: Dr. Veena Paliwal
E-mail: vpaliwal@westga.edu
Office: 318 Boyd Building
Phone: 678-839-4128
Class Location: 307 Boyd Building
Class Meeting: Online

Catalog Description:
This course has a special emphasis for teachers of grades P-8. It broadens understanding of the fundamental concepts of algebra with particular attention to specific methods and materials of instruction.

Required Books:

Student Learning Outcomes:
The teacher candidates should be able to do the following:

- Define point, line, and angle (such as interior angle, exterior angle, parallel lines, perpendicular lines, collinear points) and their associated properties and use them correctly in problem solving.
- Find area, perimeter, surface area, and volume of two- and three-dimensional figures (such as triangle, rectangle, parallelogram, circle, rectangular prism, cone, and pyramid).
- Describe similar and congruent figures and be able to solve problems using the property of similarity.
- Be able to determine interior and exterior angles and line measures of polygons using properties.
- State Pythagorean Theorem and use the theorem in various problems.
- Know rotation, translation, and size transformation of geometric figures and use them in problem solving.
- Define important mathematical ideas such as slope and intercepts and solve problems regarding rotation and translation.

Evaluations and Grading Procedures:

Homework and quizzes (30%): There will be 2-3 homework assignments for each chapter. Homework assignments should be done after completing all assigned readings and finishing the worked examples. NO LATE HOMEWORK WILL BE ACCEPTED.

Exams (45%): There will be 3 one-hour exams, and each exam will contribute 15% towards the final grade. Unexcused absences from an exam will result in a grade of zero (0) for that exam.

Final Exam (25% of the grade): A comprehensive final exam will be given during Finals Week.

Letter grades will be assigned by the following scale:

- 90-100% A
- 80-89% B
- 70-79% C
- 60-69% D
Below 60%   E

**Make-up and extra credit policy:** There will be NO make-ups for HW assignments, quizzes, or exams will be allowed. **Please note that NO extra credit will be given!** Points can be earned only as stated above.

**University policies:** Please refer to university’s policy at http://tinyurl.com/UWGSyllabusPolicies

**This is a tentative schedule of assignments and topics to be covered. Changes will be made as needed.**

- **Week 1:** Sections 11.1, 11.2, 11.3 (Introductory Geometry)
- **Week 2:** Exam 1 review; Exam 1
- **Week 3:** Sections 12.1, 12.2, 12.3, 12.4 (Congruence and Similarity with Constructions)
- **Week 4:** Exam 2 review; Exam 2
- **Week 5:** Sections 13.1, 13.2, 13.3 (Area, Pythagorean Theorem, and Volume)
- **Week 6:** Exam 3 review; Exam 3
- **Week 7:** Final exam review
- **Week 8:** Final exam
