Syllabus quiz
This is a mandatory quiz. You have to take it during the first week of classes and you have to receive 10/10 in order to continue in the class. There are three attempts.

Exams
We have four short exams in this course and the lowest exam grades is dropped. Exams consists of the combination of the following type of questions: true/false questions, multiple choice questions, the short answer, and essay/case questions. The exams are taken online. You have 45 minutes to complete each exam.

Case presentation (group)
You will present the assigned case. Guidelines are given in Courseden. Groups are assigned randomly in CourseDen.

Case reports (individual or groups of 2)
You will write case 3 reports for cases that your group is not presenting. Guidelines are given in Courseden. You can write cases individually or in groups of two.

Current Issues (your own posting and replies)
You are required to find a current news article/video (1/student) that relates to our topics in this course. You will summarize the article/video and add your own question to the class. You will post your summary and question on the discussion board by Tuesday midnight of the week you are assigned. Others reply to the question (minimum of 5 replies are needed during the semester). Think about this assignment as your class participation. The schedule for current issues will be in Courseden after the first week of classes.

Grading Policy
Exams are graded within 7 days from the due date of the exam/assignment. All short answers and essays in the exams have to be graded manually; therefore, you first receive “0” from the short answer or essay question.

Exams/assignments are not graded until the availability has ended. For instance, if the exam is due Sep 1st and you complete the exam Aug 28th, your exam will be graded within 7 days from Sep 1st, not Aug 28th.
Current issues assignment will be graded after last discussion is completed and simulation will be graded at the end of the semester.
