Education

Bachelor of Science in Biology

University of West Georgia, Carrollton GA

May 2017

Related Experience

Lab Assistant

University of West Georgia Biology Department
Carrollton, GA

August 2015 – Present

- Supervise and assist biology students in the laboratory.
- Practice safety measures as defined by the Biology Department.
- Answer lab related questions and assisted students with biology homework.
- Prepare laboratory for each session, setting up equipment, preparing reagents, and ensuring accurate stock of inventory.

Field Intern

Georgia Department of Natural Resources
Wildlife Resources Division
Atlanta, GA

June 2015 – July 2015

- Monitored assigned protected area for signs of wildlife poaching and reported any findings to Conservation Ranger.
- Completed written reports of activity and submitted to supervisor.
- Successfully tracked and located a family of 3 black bears that were moving into a residential area, resulting in their relocation to a safer, conserved area.

Volunteer Experience

Carroll County Humane Society

Carrollton, GA

August 2013 – Present

- Provides clean, warm environment for sheltered dogs, cats, horses, rabbits, and other animals as needed.
- Walks dogs and create training exercises to assist with their adoptability.
- Raises money and gather donated food to ensure support of animals.
- Consults with visitors and help them find a pet that fits their family and lifestyle.
