Note: The survey below is only a "COPY" of the scantron survey which is handed out and mailed to each video-conferencing (GSAMS) site for each UWG distance course. When surveys are mailed, self-addresses stamped envelopes and #2 pencils are included for the students to use. Results are anonymously computed by the UWG Instructional Technology Department, stored in a database, and forwarded to the Distance and Distributed Ed Center for distribution to faculty and department chairs.

The below "COPY" of the Distance and Distributed Education Evaluation is *not* a functioning survey tool.
8. If this course had not been offered at my site, I would have commuted to the Carrollton campus to take the course. (Remote students only)
☐ Agree ☐ Disagree

9. Please rank the following type of courses (from 1 to 4) based upon your preference for them. One (1) is the highest rank, meaning this is the type of course you would like to take most.

1. Traditional, face-to-face course
2. GSAMS course
3. Combination GSAMS/Online
4. Completely or mostly online
