

NOTE: Fully or entirely online courses are charged at the general tuition rate plus an eTuition rate BUT with fewer fees and no extra charges to non-Residents. Together this means that GA residents pay about the same if they take all face-to-face or partially online courses as they do if they take only fully online courses exclusively; while non-residents save money by taking fully online courses.

One word of caution: If a student takes a combination of face-to-face and online courses in a single term, they will pay both all mandatory campus fees and the higher eTuition rate.

For official cost information, as well as payment deadlines, see the Bursar's Office website at <http://www.westga.edu/bursar/>
